anadeveloper.com

Web and Mobile Application Developer with over 5 years of experience, specialized in designing responsive, modern, and user-centered interfaces. Strong expertise in React, React Native, JavaScript, TypeScript, and Node.js. Proven experience in integrating Figma designs, optimizing applications, and collaborating with backend teams via RESTful APIs. Comfortable working in Agile environments (Scrum, JIRA, Confluence), with a sharp eye for aesthetics and a passion for innovative solutions.

HARD SKILLS

- **Languages:** JavaScript, TypeScript, Python
- **Frameworks:** React, React Native, Node.js, Express, Next.js, Prisma
- **State Management:** Redux Toolkit, Zustand
- **Web Technologies:** HTML, CSS
- **Databases:** SQL
- **Tools:** JIRA, Confluence, Scrum
- **Version Control:** Git

SKILLS & COMPETENCIES

- Teamwork
- Verbal and written communication
- Problem solving
- Critical Thinking
- Strong Communication & Collaboration
- **Languages:** English, French Spanish

PROFESSIONAL EXPERIENCE

React Developer, Globant (December 2022 - September 2024)

- Assisted in the upgrade of the applicant tracking system to a **Next.js** and **Prisma** platform, which improved the candidate experience and streamlined recruitment processes.
- Collaborated with the team to integrate **Zustand** for state management, contributing to enhanced application performance and user interaction.
- Worked alongside team members to optimize API integrations and enhance overall system reliability, helping to facilitate a smoother recruitment workflow.

React Native Developer, Globant (June 2021 -December 2022)

- Collaborated in the development of a **React Native** app for vendor payments, integrating credit/debit cards, ACH, wire transfer, and check payments, reducing transaction latency by 15%..
- Collaborated in an Agile environment, utilizing **Scrum** and **Jira** to track progress, ensuring timely delivery and a 20% improvement in load times through performance optimization.
- Designed and implemented user-friendly interfaces and notification systems, enhancing onboarding by 20% and reducing missed payments by 10%.

React Native Developer, Euclidian (October 2019 - May 2021)

- Developed a **React Native** application to manage and review user information, improving data accessibility for users by 30%.
- Designed and implemented user authentication and profile management features using **Redux Toolkit** for state management, enhancing user security and data integrity.
- Assisted the **Node.js** team with simple tasks, contributing to smoother backend integrations and improving the overall development process.

React Developer, Euclidian (January 2019 - October 2019)

- Developed a **React** web application that improved user interaction speed by 25% through efficient state management using **Redux** and responsive design with **Bootstrap**, ensuring seamless performance across devices.
- Refactored and optimized component rendering with **Bootstrap** for responsive layouts, leading to a 30% decrease in page load times and enhancing overall user experience.

Electronic Engineer, Tepoli (August 2016 - January 2019)

- Configured and optimized **Raspberry Pi** systems with **Python** for diverse applications, improving system performance by 20% and enhancing overall functionality. Developed **SQL** scripts for data storage and retrieval on Raspberry Pi, further optimizing data handling processes.
- Designed and welded electronic circuits, achieving a 30% increase in circuit reliability and adhering to industry safety standards.

EDUCATION

Bachelor's Degree in Electronic Engineering

La Salle university

Francisation

Full-time Program Québec Government Program September 2024 - March 2025
